## Experience

**Jukola Consulting Oy** · Contractor for IT Management  
(2019 - Present · 4 yrs 7 mos)

- For Jan 2022 - May 2024 I worked as a **technical PM** in the **PM-Office** for a company renovating and cloudifying their ERP and integrated systems for streamlining and boosting the recycling business. In this programme of 150 people my areas of management were **infrastructure** setup and **integrations** development.
  - Additionally, I had key role in developing the **project portfolio management** using "Microsoft CRP" **hybrid methodology**, and customizing tooling for it using **Atlassian** Jira and Confluence.
- For 2020-21 I worked for Paulig Group in multiple roles: An **enterprise architect**, a **solution architect**, and a **methodologist**. I reported to CIO directly. Also, I worked along and learned a lot from gurus of different IT disciplines; analytics, DW, reporting, APIs, eCOM, and then some factory IT/IIoT. Key tool that I used and administered was **Azure DevOps** Boards.

**Avanade Finland Oy** avanade Solutions Architect | Technical Project Manager | DevOps Advisor (Full-time employee: Mar 2010 - Nov 2019 · 9 yrs 9 mos)

- At Avanade I worked as a certified Systems Integration **Solution Architect** (SISA) and as a **technical project manager**. In the role of a SISA I transformed business ideas and requirements into technical blueprints, epics, and backlogs,

and created a concrete delivery plan for the envisioned solution. As a PM I did commit to deliver the solutioned business value. The advantage of combining these two roles is a genuine understanding of project details, desired outcome, as well as constraints and risks. I also worked as **DevOps Advisor** for the Avanade's international 100+ strong team of DevOps specialists.

[Soalution Ky](#) · Contractor for Software Architect and PM roles  
(Jul 2006 - Feb 2010 · 3 yrs 8 mos)

- **Enterprise-wide integrations**, implementing Service Oriented Architectures, Microsoft BizTalk and SQL Server.

[Talent Partners / Tek Laboratories](#) · Systems Architect at Talent Partners, CTO of Tek Laboratories (Full-time Apr 2001 - Jun 2006 · 5 yrs 3 mos)

- As CTO of Tek Laboratories Ltd I helped to establish a **near-shore software factory** to St Peterburg Russia. And worked onshore as tech lead and project manager for Finnish customers.

[Accenture](#)  · Systems Integration Consultant  
(Full-time employee 1993 - 2001 · 8 yrs)

- My Baptism of fire into the IT-consulting world: **From a programmer to a manager** via programming, testing, design, estimation, team Leading, application architecture design, integrations, project management, solution architect role, etc.

## Education
